Mounting:

Simple put in the supporting structure of the ceiling, or after addition of special plastic profiles into the lighting case of the reonvated lamp.

Construction details:

Dimension:

see drawings

Weight:

to 4,0kg

Material:

alloy of aluminium, plastic, glass

Ambient temperature:

from -30°C to + 50°C

Degree of protection:

IP20 (power supply IP67)

Power supply location:

upper part of the lamp

Guarantee:

5 years (or 17 500 lighting hours)

Durability:

> 50.000 hours (relate to the LEDs)

Supply:

Input voltage:

90V - 264V, 50/60Hz

Power supply:

high efficiency ca. 90%*

Dim option:

DALI, 1~10 Vdc, PWM signal,
CLO (on request)

Possibility to add motion sensor, light sensor etc., and with them related controller and dim function.

Light parameters:

Light source:

LEDs NICHIA (made in Japan)

Number of LEDs:

9 pcs

Color temperature of the light:

3000-6500K

Luminous flux:

4230lm (by 6500K)

Dim function:

optional, from 10 to 100%

Beam angle:

from 8° to 155°

Real luminous power:

up to 128lm/W

Input of the LEDs:

to 30W

Input whole lamp incl. power

supply:

to 33W

CRI:

70-90

No harmful emissions IR and UV radiation.

lighting case - possibility to
choose from different RAL
colors

* depends on the used power supply type and supply method

ENVIRONMENT AND RECYCLING

For the production of our LED lights are used only **ecological** materials.

The components guarantees a long service life, as evidenced by the **5-year warranty**.

High luminance and low power consumption means **ecology** in every spared Wat.

We guarantee that our light sources and lamps are **recyclable**.

Why SL justine fantasy 4200?

A ceiling lamp by which, as the name already says, you can play with your fantasy.

Interesting is the option how to place the lighting points according to your project (e.g. in form of ring, triangle, etc.), all this is possible.

The color of the front side of the lamp can be made in different color, not only white (depends on your requirements).

Many light parameters can be adapted to your needs, we offer a special LED lamp, which makes your work more effective and comfortable. Under the light quality we understand a light, which is very similar to the sunlight with CRI 80 and more (by warm white). Save your eyes and health!

U S E :
Suitable as interior ceiling lamp 600x600mm e.g. in offices, shops, hallways, etc.

If you are interested in this LED lamp, or you have any questions, do not hesitate to contact us.

Thank you for your time and interest.
